

Balancing blocks game at Lukestone Care Home

On Wednesday 7 December we opened a 'Balancing Blocks' game here at Lukestone Care Home; it created fun, new possibilities as to what our residents could create with the colourful lensed wooden shapes.

Our residents enjoyed using the blocks and were impressed as they could see the world through a different lens!

We asked Brian to make a tower, and after a demonstration he was completely engaged in the activity. He built a complicated tower and then a palace from the blocks, which encouraged others to have a go too. *Lots of fun!*
