

Cheese tasting trolley at Lukestone Care Home

On Thursday 16 February, Mihaela, our Team Leader, brought in a variety of cheeses to stimulate our residents' taste and smell senses here at Lukestone Care Home; our tasting trolley was filled with all sorts of mouthwatering cheese, accompanied by wine and chilled beer for everyone.

We **decorated our trolley** beautifully with cheese with the help of our entire kitchen staff and in particular Elle, our Kitchen Assistant, who instructed and gave a helping hand cutting and plating for the activity.

The trolley then toured around our entire Home gently wafting the surroundings with the scent of **fresh and creamy cheese and crackers**.

Upon seeing the cheese platter, our residents were **excited to have a taste**. Even Mary who was asleep initially, woke up to devour an entire plate of cheese and crackers in no time. *Delicious!*
