

## Lukestone Care Home residents create All About Me board

On Tuesday 14 June, we enjoyed a sunny day with our residents at Lukestone Care Home in our garden for some hand painting.

We asked each resident involved to get their **hand painted** and then stamp their imprint onto a piece of paper. Around their hand we helped them write their interests and things they love.

This was a great activity as it allowed us to **get to know our residents even better** and our ladies and gents also enjoyed taking more about their hobbies and things they enjoy.

Using all the paintings, we put up a display and made an '**All About Me**' board, so anyone coming in can get to know our residents better.

On top of this we did some **finger painting and made pictures of trees and flowers**. Everyone really enjoyed this activity and it was lovely to be outside enjoying the lovely weather!
