

Lukestone Care Home residents enjoy blue skies at Capstone Farm Country Park

Last week, we took a group of our residents from Lukestone Care Home to visit Capstone Farm Country Park in Chatham.

The park is a former farm which has been converted into a landscaped park and open-space area, set on 114 hectares of beautiful scenery, including a fishing lake.

We enjoyed the fresh air and glorious weather as we took a stroll together, pausing for rests and photos, and enjoying a coffee stop.

We also enjoyed popping along to **Dobbie's Garden Centre**, which is a favourite of ours, as our residents really enjoy browsing the gifts.

As part of the outing we couldn't resist a hearty fish and chip lunch together, which was delicious!

A super day out – we're looking forward to going back again soon!
