

Lukestone Care Home residents take a trip to Chartwell House

Our residents here at Lukestone Care Home had a lovely day out at [Chartwell House](#) recently – a wonderful National Trust attraction – the family home and garden of Sir Winston Churchill.

We walked around the beautifully-kept grounds and the gorgeous interiors of the house, which were really delightful.

We had tea and coffee stops while taking in the lovely fresh air and then stopped for a delicious lunch at the Landemare café.

It was a really wonderful place to visit and we all thoroughly enjoyed the day.
