

Lukestone Care Home residents visit The Millbrook Butterfly Experience

We were excited last week to take a group of our residents from Lukestone Care Home on an outing to Millbrook Garden Centre in Gravesend, to visit their in-house butterfly experience.

The *Millbrook Butterfly Experience* showcased an array of stunning butterflies and exotic scented plants from across the world. It allowed us to get up close and discover amazing facts about the life-cycle and behaviour of the beautiful butterflies on show, experiencing them free-flying all around in an indoor tropical garden - amazing!

It was a wonderful outing and we thoroughly enjoyed sharing the experience and talking about it over tea and cake in the cafe afterwards.
