

New Year aspirations at Lukestone Care Home

Here at Lukestone Care Home we've been getting into a new year mindset, so we decided to make a vision board with the things we would like to accomplish in 2024.

Our residents were more than happy to choose pictures of the things they would like to experience such as **being healthy**, **doing more sport**, **bringing llamas into our Home** and **practicing laughter yoga**. They'd also like to go out more to **communal parks** and the **beach**, to just enjoy life. We made an eye-catching display to show off all our ideas.

We've also been making our own pretty **fortune cookies** to gift to Lukestone visitors and our Chef Ellie made us a fantastic **celebration cake**.

Happy new year!
