

Tickled Pink Wild West show at Lukestone Care Home

On Saturday 8 July, Tickled Pink Productions staged a fun musical called 'Wild Wild West' at Lukestone Care Home.

Before the show began, the actors handed out song books to our residents. However, when spectating the performance these were forgotten as **everyone was so mesmerised** and focused on what was coming next!

In between acts, the performers would encourage the audience to join in, which many of our ladies and gents loved, feeling very involved in the storyline.

Everything was performed brilliantly and the country accents of the actors, with a **fun script and familiar songs**, made it extremely entertaining.

Our residents had their eyes glued to the show which brought so much joy.
