

Tie dye day at Lukestone Care Home

Today our residents at Lukestone Care Home had fun making tie dyed napkins for decorations.

Our ladies and gents really enjoyed **personalising their own napkins** and making them **really eye-catching**. Lots of bold colours and patterns were created and we were really thrilled with the results of the tie dying process.

These amazing creations will be displayed and used as a backdrop for our summer fete. *We're really excited to show them to family and friends!*
